Online Construction Arbitration Books • IAR

Modified Total Cost Method of Proving Damages Permitted in California. Finally, the Court held that on remand DRW may pursue a modified total cost theory, if it is not required to document its actual costs. Under the total cost method, damages are determined by subtracting the contract amount from the total cost of performance.

Modified Total Cost Method of Proving Damages: Approved ...

A "global" or "total cost" claim is one in which the damages calculation is derived from the total cost of the work incurred by a contractor, minus the bid amount. Such claims are increasingly used by contractors where proving actual damages is impossible or impracticable. Whilst total cost claims are not in principle objectionable, in order to succeed, the courts will require significant ...
